

**BUSINESS SOFTWARE** perfect for **HORTICULTURE**

**“Accentis was able to understand our requirements and solve our problems, and now it runs all aspects of the business”**

## We help you grow your horticulture business

For over 20 years, Australian and global businesses have trusted Accentis Enterprise to manage their financial and operational data. We put your whole business in one place so you can see it all at a glance and drive efficiency.

-  SEE your business
-  KNOW your business
-  GROW your business

# How Accentis Enterprise enables growth

Single software solution to manage the entire business

Businesses often fail to reach their full potential due to limitations of the software, systems and processes that the owners have adopted over time. Critical data is spread across a mix of spreadsheets, accounting software and other ad-hoc software bolt-ons with no data or process cohesion.

**Accentis Enterprise manages all of your business data in a single system that is robust, scalable and centralised.**

**Accentis has an experienced implementation team ready to start you on your growth journey.**

# Creating gains in the horticulture & nursery industry

Accentis took on its first horticultural client 12 years ago, and since then our product has evolved to satisfy a wide variety of requirements in this industry

- **Propagation planning** for growing seasons
- Integration to **Bunnings'** Order System (EDI)
- Plant barcode label scanning & printing
- Consolidated **plant picking** lists
- **Plant location** management
- **Transport** delivery manifests / schedules
- Track propagation & potting activities electronically
- Sales and production **forecasting tools**
- Batch / provenance traceability
- Genus & species **plant register**
- Rebates & settlement **discount processing** on sales
- **One system for everyone** to use, from sales to grower, driver & administration

Accentis understands the pain of managing long-term production commitments with variables such as weather, production capacity and forecasting requirements. Accentis Enterprise removes the need for complicated spreadsheets and provides visibility and efficiency on all levels of your business from admin to plant growers.

## CASE STUDY

### THE CLIENT

Humphris Nursery is one of the oldest registered wholesale nurseries in Australia spanning 5 generations.

Located on 10 acres in the foothills of the Dandenong ranges, Humphris Nursery supplies retail trade, landscapers, councils, advanced growers and breeders.

### THE NEEDS

- **Effective stock management**
- **A flexible, easy to use system**
- **Software that can meet Bunnings' requirements**

*"We previously found it difficult to manage our stock and bill of materials."*

### THE SOLUTION

- **Accentis Enterprise with production and payroll**
- **Functions and reports tailored to suit the business**
- **Expert and rapid support**

*"Accentis was able to understand our requirements and solve our problems. Accentis Enterprise now runs all aspects of the business, even to manage our Bunnings requirements using the EDI function."*

KERSTIE BELL,  
ACCOUNTS MANAGER, HUMPHRIS NURSERY
